Dear Manager,

We understand that you require furniture that not only meets the needs of your team but also provides a comfortable and functional work environment. We appreciate the hard work you put in every day, and we want to help make your work life easier and more comfortable.

Our range of furniture is designed specifically for professionals like you, who need sturdy, reliable furniture that can withstand the demands of a busy workplace.

Our chairs are ergonomically designed to provide maximum support for those long hours spent at a desk, **while our desks and storage solutions are tailored to meet the specific needs of any environment.**

We recognise that space can be at a premium in an office, which is why we offer a range of space-saving solutions that don't compromise on functionality or style. **Our furniture is designed to be flexible and modular, making it easy to configure your workspace** to meet the changing needs of your team.

We also understand, that you need to make every penny count. That's why we offer **affordable solutions that won't break the bank, without compromising on quality or style.** Our furniture is built to last, so you can be sure that your investment will provide value for money for years to come.

Everyone deserves a comfortable, functional workspace, and that includes you. So why not take a look at our range of office furniture today and see how we can help you create a space that works for you.

Sincerely,

The Centric Team

PS. Our advisors can provide free advice about what furniture will work in your space

TASK SEATING

**FIVE
YEAR
WARRANTY**

The CEN101-202 chairs are a popular choice as the classic entry level task chair, proven through their quality, durability and comprehensive range of variations and options.

CEN101-202 are available with two different mechanisms, including a Permanent Contact Back (PCB) and an Independent Seat and Back mechanism (ISB). CEN101-202 features two back size options, height adjustable or fixed arms. The CEN101-202 ranges include a draughtsmans chair.

A new addition is the CEN101 mesh - the essential task chair fitted with an eye-catching mesh back. The mesh back is ergonomically shaped, and height adjustable.

The CEN101 MESH can be specified with a PCB or ISB mechanism. Options such as the polished aluminium base give the chair the appearance and feel of a top of the range chair.

PROACTIVE ERGONOMICS

**FIVE
YEAR
WARRANTY**

The CEN 400 range of task chairs has consistently been our best-selling chair for the last 10 years because of its proactivity in the fight against bad back issues in the workplace.

CEN 400

Orthopaedic task chair can be fitted with dual density extra thick, split foam seat pad, lumbar pump, adjustable fold-away arms and seat slide.

Tested and certified to BS 5459

Features and Options

- Height adjustable ratchet backrest
- Moulded seat foam for increased comfort and longevity.
- ISB (Independent Seat and Back adjustment).
- Extra high back combined with large seat.
- Optional fixed, height adjustable or height adjustable fold down arms.

ERGONOMIC CHAIRS

CEN 9000

Designed to provide the user with the ultimate level of postural support with sculptured seat and back cushions, makes it an ideal choice for those with back problems. The fit of the chair can be enhanced by additional options including seat depth adjustment, inflatable lumbar, inflatable thoracic and a choice of arms with height adjustable as standard although a multifunctional arm pad may be fitted.

For the ultimate postural support a coccyx cut out can be incorporated into the seat design. Possibly the most unique addition is the AirTech® seat board, a body responsive seat support that moulds and adapts to your every movement.

Every individual is unique in their proportions, which is why we developed a range of back heights within the Ergonomic range.

The mid back variation is built with a laminated core; the 9000 Series is available with an upholstered outer and inner back.

CEN 9000

Complete with fold down arms, AirTech® seat, inflatable lumbar, seat slide with synchro mechanism.

CEN 9500

The expansion of the Ergonomic range has led to the creation of the ultra high back, to offer the user the ultimate in support and comfort. Developed with a laminated core structure for additional strength, the 9500 series features a fully upholstered back.

**FIVE
YEAR**
WARRANTY

INFLATABLE LUMBAR & THORACIC

By using the pneumatic pump, the lumbar or thoracic can be inflated or deflated as required to meet individual user requirement.

CEN 9500

Complete with fold down arms, AirTech® seat, inflatable lumbar, seat slide with synchro mechanism and inflatable thorax.

AIRTECH® SEAT BOARD

A push of the button allows air to flow through the two way valve; this enables the seat to move as you move and moulds to your natural shape.

MULTI-PURPOSE SEATING

**FIVE
YEAR
WARRANTY**

Flexible, stackable and affordable seating solutions for use throughout the workplace in waiting, visitor, conference and breakout environments.

ADJUSTABLE DESKS Electric

Liberty Desk

- Height range 715mm to 1190mm.
- Available in rectangular & wave footprints.
- Accepts horizontal cable management.

Agi Lite Desk

- Height range 645mm to 1295mm.
- From compact forms to larger spans.
- Sit / Stand can be used independently or positioned in clusters, giving both individuals or teams the ability to fine-tune their levels.

Switching between sitting and standing postures throughout the day can help reduce the physical stresses on your body, keep you active at work, and improve your productivity. Research suggests that we should be standing for at least two hours, per day or 20 minutes per hour. With a standing desk you can make this change as simple as possible.
